MICOSTOP SPRAY – *anti-mold/anti-condensation*

Hygienizing and healing spray for damaged and deteriorated walls. It attacks and destroys mold colonies by acting directly on the stains. Micostop Spray demonstrate its effectiveness whitening the mold in a short time.

SPECIFICATIONS

Composition: chlorine-based bleaching, stabilizers, surfactants in aqueous solution

Appearance of the treated surface: whitening of the areas blackened by mold, does not leave marks on the rest of the surface

Active Chlorine: about 5%

Dilution: ready to use.

Application: spray directly on the contaminated areas

METHOD OF USE

Spray the product directly on the mold stains from a distance of about 5cm. Wait about 30 minutes, repeat if necessary.

Micostop Spray (Caf) allows to act directly on stains removing bacteria. The result will show with a wall restored, bleached, which must be brushed when dried.

For best result, we recommend the application of the complete **Antimould Cycle: Micostop Spray + Micostop Soluzione + Micosop/Hydromur Plus/Isotherm**

CLIMATIC CONDITIONS

To avoid compromising the optimal performance of the product, we recommend the application in specific climatic conditions:

- Apply at temperatures between +5 °C and +35 °C;
- Avoid the application on surfaces heated by strong sunlight,
- Avoid application when rain is imminent,
- Avoid application in presence of moisture;
- The painted surface must be kept away from rain and humidity for 48 hours.

USEFUL TIPS:

- Store at room temperature.
- Keep out of reach of children.
- In case of contact with skin, wash immediately with water.
- Make sure the room is well ventilated during application.
- Do not spray on plants or tissues.
- Close the container tightly after each use.
- Protect surfaces not to be painted (windows, tiles, glass etc ...).
